The accident was listed as occurring near BISCAYNE BAY in Florida . This is an approximation for the location based on the details provided in the accident report.

Boat History Report® depends on accident data from government and independant sources. However, not all accidents are reported to Boat History Report. Therefore, it is recommended to have a professional inspect this boat before you purchase.

## Damage Check

Boats can be damaged in a variety of different ways, and not all damage results in a Total Loss of the vessel. These boats are usually repaired and resold with clean titles, without disclosing previous damage or total loss events. Boat History Report® helps uncover events like these in a boat's history.

### ✔ Congratulations! Damage Check Clear

No damage claims have been reported to Boat History Report

Boat History Report® depends on damage and total loss data from government and independent sources. Based on the data acquired and provided to us by multiple private and public sources, no damage or total loss incidents have been reported on this watercraft. However, not all damage and total loss incidents are reported to Boat History Report®. Therefore, it is recommended to have a professional inspect this boat before you purchase.

## U.S. Coast Guard Documentation Data

Vessel documentation is a national form of registration, which is different than individual state registration requirements. Boats over 5 net tons (generally boats 25ft in length, or larger) in navigable US waters may be documented with the US Coast Guard. Our reports include historic and current US Coast Guard documentation data as it is reported to us.

### ❗ No US Coast Guard Documentation Data Available

This boat has not been documented with the US Coast Guard or has been documented without a valid HIN.

If your report is missing USCG Documentation information, it could be because the boat was not documented, or was documented using an incomplete or invalid HIN. Prior to 1995, USCG documentation records were not digitized and are therefore not available in our reports. USCG began recording Certificate of Documentation issue date and expiration date in 2002. The absence of an expiration date, or when an expiration date is passed, does not necessarily indicate a vessel is out of documentation, but rather that the boat has been put into investigative status which could indicate pending, removal or transfer of ownership.

## State Data

Boat History Report® works with every state's Department of Motor Vehicles and Department of Natural Resources to collect additional boat details. The information shown below was gathered and represents details in addition to the information that has been displayed throughout other sections of your report.

## US Customs & IRS Seizure

Boats are constantly seized by U.S. Customs due to illegal activities. Many times these boats are neglected by previous owners and incur serious damage during the seizing activity.

### ✔ Congratulations! US Customs & IRS Seizure Check Clear

No IRS or Criminal Seizures have been reported to Boat History Report.

Boat History Report® depends on US Customs & IRS Seizure data from government and independant sources. Based on the data acquired and provided to us by multiple private and public sources, no US Customs & IRS Seizure incidents have been reported on this watercraft. However, not all US Customs & IRS Seizure incidents are reported to Boat History Report. Therefore, it is recommended to have a professional inspect this boat before you purchase.

## Additional Info

We collect data from thousands of sources, both public and private. Most of our data fits into our main categories. However, some of the data we receive is more unique and will display here when available. This information often times comes from our nationwide network of Certified Marine Surveyors and are summaries of surveys they have performed for pre-purchase, damage/loss, insurance, appraisal, and other.

Boat History Report® depends on information from Marine Surveyors and other independent sources for the Additional Info section of the report. The accuracy of information provided to you by Boat History Report® through history reports is directly dependent on the accuracy of the information reported to Boat History Report® by its providers and affiliates. Therefore, it is recommended to have your own professional inspection performed on this boat before you purchase.

## Warranty Check

Many boat manufacturers provide a limited or lifetime warranty on the vessels they make. It is beneficial to understand the warranty information prior to purchasing a new or used vessel.

### No Warranty Information Reported

The manufacturer has not reported any warranty information to Boat History Report®. However, it is recommended that you contact the manufacturer or a certified dealer to verify that other warranties do not exist. *This does **not** mean that this boat has no warranty.*

The first three characters of the HIN designate the manufacturer of the vessel. The first three characters of the HIN you have entered, **OQR**, designate *ORION BOAT COMPANY* as the manufacturer.

However, the following manufacturers also share this three letter code:

- ORION BOAT COMPANY

Because of this, there could be multiple warranties listed below that do not apply to your boat. Carefully read through the warranty information to determine if they apply to the make and model of your vessel.

<b>Address</b>	1145 CAMPO SANO AVE
<b>City State, Zip</b>	CORAL GABLES FL, 33146
<b>Telephone</b>	7862661220
<b>Website</b>	Unknown

The Boat History Report® Warranty Check provides an approximation of current warranty coverage for new vessels. Because warranty coverage changes from year to year you should contact the manufacturer or an authorized dealership for more information. Additionally, events in the vessel's history could void its warranty, and are not accounted for in the Boat History Report Warranty Check. These events include, but are not limited to, reported or non-reported accidents, hurricane damage, any other damage, or ownership transfers which may decrease or void warranty coverage.

# Recall Check

Many boats manufactured often contain dangerous, potentially fatal flaws. Is your boat safe? Open, unfixed, safety recalls can result in serious injury and sometimes death. Due to safety concerns, manufacturers report recalls every month; however, numerous flawed boats remain in the marketplace. Check below to see if your boat has been issued a safety recall.

## Recall Information Found

The manufacturers listed below have issued the following recalls on their vessels. Please review these recall records to determine if they apply to the model and year of your vessel.
